

Department of Computer Science
University of Wah
Assignment #01

Course Code: CS-251

Course Title: Intro. to Information Security

Total Marks: 15

Discipline/Semester: BS(CS)-3rd B

Deadline: 4th Nov,2025

Assigned Date: 29th Oct,2025

[CLO1-GA2- C2]

Instructions:

- Submit your assignment in hard form in a well-structured format

Q.1. Describe the importance of information security policies in an organization.

Q.2. A University server is hacked, and student records are leaked. Identify possible vulnerabilities and recommend preventive measures.

Q.3. You receive an email from your bank asking you to “verify your account.” Explain how you would determine if it’s a phishing attempt.

Q.4. If an employee loses a USB drive containing sensitive data, which part of the CIA triad is violated and how could this risk be mitigated?

Q.5. Consider a ransomware attack on a hospital’s database — discuss the impact, prevention, and recovery strategy.

"Small changes can lead to big impacts—reduce, reuse, and save energy for a brighter future."
